FINE ART SINCE 1989

MIN MA

## About the Artist

Min Ma was born in 1955. At the age of 18, Min attended Art College for three years of formal training. Following college, he applied to, and was accepted at, the prestigious and highly regarded China Academy of Fine Arts. He graduated in 1982 with a bachelor of fine arts degree (BFA) and taught fine arts at the Shandong University until 1986 when he came to Canada and has lived in numerous cities throughout North America.

Developing an interest in art in his early childhood, Min was well into his career as a professional artist, where he has received much critical success, at a relatively young age. Min's work shows a serious professional commitment to fine art. His painting style is easily accessible to all, and the depth and breadth of his skill is apparent in the first viewing. Min's paintings are vivid, with clarity of color and tone that adds depth and feeling to his vision. The subject matter of Min's paintings is very diverse and the versatility in his subjects keep him energized with a passion to create. His sphere of artistic interest includes landscape, still life, portraits, and human figures. Recently, Min's main focus is landscapes on acrylic. His work directly reflects the passion of natural beauty. Min constantly displays sensitivity, accuracy and an amazing attention to detail in his work to describe the reality of what he sees around him. After many years of exhibiting group and solo shows at various galleries, he has received widespread recognition for the quality of his work, and his success brought his painting to the attention of both private collectors and corporate clients across Canada and worldwide.

Min currently resides in British Columbia with his family.
